

Lights Out Tunnel

Last Updated Wednesday, 15 January 2014 13:49

Parts:

- Motion sensors
- Light sockets
- Power cables
- Contact relays
- Outlet box
- Conduit
- Walls

Description:

The Scene- As the guests enter the hall they see a long tunnel with possible twists and turns. As they proceed down the path, the lights go out on them one by one until they are in complete darkness.

Layout- This is basically a hallway with bent panels to it forms a tunnel. every third panel or so is a recess with a light inside. Conduit has been attached along one side to help the look of a sewer or access tunnel. the walls have been painted to look like stone, or you could use a compound to build texture for a more realistic look.

A woman with long black hair and a red cape stands in the center of a dark, arched tunnel. The walls are lined with red, textured panels, and the ceiling is a series of dark wooden beams. The lighting is dim, creating a mysterious and slightly ominous atmosphere.
