

Parts:

- (1) long rope for overall run
- (2) jumars
- (2) carabeaners
- (1) harness
- (1) large pulley
- (1) short piece of rope
- (1) snatcher costume

Description:

The soul snatcher was made from a harness that went around the legs, and one on the back, around the chest. These harnesses can be made from webbing purchased at outdoor stores that have mountain climbing gear, along with all the other supplies needed. Then a rope was stretched to either end of the location that we wanted the soul snatcher to fly along, it was made taut by using a come-a-long (block and tackle) to stretch it out to the right tightness.
